

# All Along

Riley Green

65-South, the quickest way from Nashville to my house  
And I-20 is, the quickest way to get you back to me  
I've sang in every bar that this town has to play  
With all this runnin' I still ain't found my place  
Back with you, when I do

I want Grandma in the garden  
Granddaddy out there on the lake  
You can follow me leavin' a trail of beer cans clear of the interstate  
You standin' in that gravel drive in the last dress that you had on  
It's like I've been here all along

A time or two, I've lied to you  
Made you think things of me, we both know wasn't true  
Once or twice, I took advice  
The devil in this bottle tellin' me what I should do  
I've drank every shot that this bar has to pour  
It's finally come that time that I can't hold anymore  
I wanna go home and I hope

That Grandma's in the garden  
Granddaddy's out there on the lake  
You can follow me leavin' a trail of beer cans clear of the interstate  
You standin' in that gravel drive in the last dress that you had on  
It's like I've been here all along

Lord knows I've had my share of sin  
If I get to Heaven, if they let me in

I want Grandma in the garden  
Granddaddy out there on the lake  
You can follow me leavin' a trail of beer cans clear to the pearly gate  
You standin' in that gravel drive in the last dress that you had on  
Like I've been here all along  
Like I've been here all along
