

# Down For You (feat. BJ the Chicago Kid)

Kehlani

Best friends or lovers  
Can't seem to draw the line between each other  
What is defined means nothing to a brother  
You just don't give a damn, that's why I think I love ya  
It's not fair, how easy I melt when you play with my hair  
I ain't going nowhere, it's not right  
I can't sleep without you anymore at night time  
Not in this lifetime Love ain't never been so close, but so far away  
Like your mind is telling you to just back off  
And your heart says just stay  
What's a love that doesn't keep you up all night and all day  
If it's not too late, yeah you realise it one day  
We can go to the movies boy, maybe we could hang out boy  
Whatever you wanna do, cause I'm down for it  
I'm down for you  
One day we're lovers, next day we're friends  
Don't know where it begins or it ends  
But let me tell you one thing going through a nigga's head  
Most nigga's just scared  
It feels too good to be true  
Every time I'm with you  
I'm ignoring what I'm next to Cause love ain't never been so close, but so far away  
It's like my mind is telling me to just back off And my heart says just stay  
Tell me what's a love that doesn't keep you up all night and all day  
And if it's not too late, maybe I realise it one day  
We can go to the movies girl, maybe we could hang out girl  
Whatever you wanna do, cause I'm down for it I'm down for you  
(I'm down for you baby)  
Babe I'm down for you  
(Are you down for me)  
I'm down for you  
I'm down for you Cause love ain't never been so close, but so far away  
It's like my mind is telling me to just back off  
And my heart says just stay  
Tell me what's a love that doesn't keep you up all night and all day  
And if it's not too late, maybe I realise it one day And when I'm ready baby  
Maybe it won't be too late  
Maybe one day you find some guy  
That won't treat you like I will  
Better choose up, better hurry up  
Time keeps ticking, but you're my lover
