

# Thought I Knew

Weezer

[Verse 1]

Sorry about my past life  
Sorry but we just missed  
Sorry it had to end up like this  
Sorry if I caused you pain  
Sorry I forgot your name  
Sorry, but you left me out in the rain

[Chorus]

Thought I knew you better then  
Thought I knew your intentions  
Thought I knew but didn't have a clue  
Not a single damn thing was true

[Verse 2]

Sorry if I caused you harm  
Sorry I'm no good luck charm  
Sorry you didn't end up in my arms

[Chorus]

Thought I knew you better then  
Thought I knew your intentions  
Thought I knew but didn't have a clue  
Not a single damn thing was true

[Verse 3]

Now that our world's gone dark  
We've drained the well, blew out the spark  
And now we're left with broken hearts  
Trying to find a new place to start

[Chorus]

Thought I knew you better then  
Thought I knew your intentions  
Thought I knew but didn't have a clue  
Not a single damn thing was true  
Thought I knew you better then  
Thought I knew your intentions  
Thought I knew but didn't have a clue

Not a single damn thing was true
