

# Just Wanna See

SHAED

Can we take a break  
From this life  
Set our worries to the side  
Live a day, like it's ours  
Share an evening with the stars Smile at you, I'll never stop  
Wanna be doin' that couple stuff  
I'm tired of being lonely [Chorus]  
I just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see  
[Verse 2]  
I should remember when it's hard  
It's only cause we've been apart  
Terrified by the space  
So when I get you in my place Let's just eat that honey pick me up  
Smile at you until we drop  
Wanna be doin' that couple stuff  
I'm tired of being lonely [Chorus]  
I just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face  
You standing there  
And I watching you darling you better  
Get over here  
Close your eyes and let your mind run free Coz i Just wanna see  
Just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see I'm tired of being lonely I just wanna see  
I just wanna see your face now  
Just wanna see  
I just wanna see your face now  
Just wanna see

I just wanna see your face now  
Just wanna see  
I just wanna see your face nowWanna.. wanna..  
See your..face face face
