

Let Me Love the Lonely

James Arthur

You laugh at all the jokes
Even the ones you know
Funny I'm doing that, too
I love the crowded room
The one string that's out of tune
Trust me, I feel like I do
Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
Lighthouse without the lights
You smile without your eyes
I know, coz I do that too
Your own worst enemy
You think that no one sees
I do, coz I'm like that too
Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
We can light a fire to moments
Coz what is much to cold to see the love?
Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
