

# The Only Reason

## 5 Seconds of Summer

Don't talk  
Let me think it over  
How are we gonna fix this?  
How are we gonna undo all the pain? Tell me  
Is it even worth it?  
Looking for a straight line  
Taking back the time we can't replace All the crossed wires  
Just making us tired  
Is it too late to bring us back to life? When I close my eyes and try to sleep  
I fall apart and find it hard to breathe  
You're the reason the only reason  
Even though my dizzy head is numb  
I swear my heart is never giving up  
You're the reason the only reason  
I feel you burning under my skin  
I swear I see you shining  
Brighter than the flame inside your eyes Bitter words are spoken  
Everything is broken  
It's never too late  
To bring us back to life When I close my eyes and try to sleep  
I fall apart and find it hard to breathe  
You're the reason the only reason  
Even though my dizzy head is numb  
I swear my heart is never giving up  
You're the reason the only reason (Ohh-ohh-ohh)  
(the only reason)  
Don't talk  
Let me think it over  
How are we gonna fix this?  
How are we gonna undo all the pain? When I close my eyes and try to sleep  
I fall apart and find it hard to breathe  
You're the reason the only reason  
Even though my dizzy head is numb  
I swear my heart is never giving up  
You're the reason the only reason When I close my eyes and try to sleep  
I fall apart and find it hard to breathe  
You're the reason the only reason  
Even though my dizzy head is numb  
I swear my heart is never giving up  
You're the reason the only reason
