

End Of The Earth

MARINA

[Intro]

End of the, end of the
End of the, end of the

[Verse 1]

Love can never be what you want it to be
But I'd still follow you down
Slow motion, no sound
To the edge of the world

[Pre-Chorus]

Hmm, tell me why do we fight?

[Chorus]

We're all living in the same universe
Where the stars collide as the planets turn
But I'll give my love, I don't care if it hurts
'Cause I'll love you 'til the end
I'll love you 'til the end of the earth

[Verse 2]

Do you ever think how this life could've been?
If you never took the chance
A leap of faith and dance
With losing it all

[Pre-Chorus]

So just wait, wait for me

[Chorus]

We're all living in the same universe
Where the stars collide as the planets turn
But I'll give my love, I don't care if it hurts
'Cause I'll love you 'til the end

[Bridge]

If we're torn apart, then I won't let go
'Cause wherever we are, it feels like home
And I'll love you 'til the end
I'll love you 'til the end

Of the, end of the
End of the, end of the
End of the, end of the
End of the, end of the

[Chorus]

I'll love you 'til the end
But I'll give my love, I don't care if it hurts
'Cause I'll love you 'til the end of the earth
('Cause I'll love you 'til the end of the earth)
(But I'll give my love, I don't care if it hurts)
'Cause I'll love you 'til the end of the earth

[Outro]

End of the, end of the
End of the
