

Don't Break My Heart

LION BABE

[Hook] 2x

Baby baby

A baby

Don't break my heart

[Verse 1]

Will you come and save me?

Wanna be your lady

Give me love, amaze me

Baby, I feel

Kiss you in the evening

Hug you in the morning

Have you thinking god damn

We're out of control

[Hook] 2x

Baby baby

A baby

Don't break my heart

[Verse 2]

You know I've been feeling

Like this is the beginning

Wanna know you love me

Like you say you do

Risking you say no

There is a no you never know

What broke me once before

(I can't go for less)

[Verse 3]

What I feel won't go away

So you better be here to stay

I want to fall this heart as bricks

So don't pull tricks on me

When I get down

You breaks me inside

Be mine..

[Hook]

[Bridge]

Let me love you
Like I want to
Let me love you
Like I want to
Like I want to
Cause I need you

[Hook]

A baby
A baby baby
Ey baby boy
You drive me crazy out of my head
I can't just be your friend
So I have to make you understand
What I want from you
What I need from you
What is gonna be
What you want from me
Okay?
