

Way Too Early (feat. Darius Rucker)

Colt Ford

You say you gotta go, go ahead, girl,
Go ahead and break my heart.
Oh, I know you gotta leave,
You probably should before we take this thing too far.
But I've been having such a good time,
Girl, I know I need to get you back.
But when you're having such a good time
It's kinda easy to get off track.

Sometimes late comes way too early,
Sometimes over comes way too soon,
It sure feels like we just got here
Sure hate to waste that big ole moon
We got all these stars, you in my arms,
right where you're supposed to be.
Sometimes late comes way too early for me

So climb on in, slide on over over here next to me,
Now you gotta get closer,
I get lonesome with you all the way across that seat.
Now we're pulling up your driveway, I see the headlights hittin' your house
Girl, I miss you already, and you ain't even got out.

Sometimes late comes way too early,
Sometimes over comes way too soon,
It sure feels like we just got here
Sure hate to waste that big ole moon
We got all these stars, you in my arms,
right where you're supposed to be.
Sometimes late comes way too early for me

Me saying good night, sure it's tough,
And one more kiss just ain't enough

Sometimes late comes way too early,
Sometimes over comes way too soon,
It sure feels like we just got here
Sure hate to waste that big ole moon
We got all these stars, you in my arms,
right where you're supposed to be.
Sometimes late comes way too early for me
Way too early for me

Way too early for me, yeah yeah
