

Hanging Around

Charli XCX

Help me out, I need escape
It's the truth, I got to go
With all the boys in the back alley
And all my girls in the super store
Because we need electricity,
City lights gotta glow for me
I want more than a car, I'm a queen
So get your shit, now we got to roll! Let's blow out of this town, too but hanging around
Sky high, head in the clouds,
Never gonna come down, ooh
Drums' pace turn 'em up loud,
Free for spinning around
Sky high, head in the clouds,
Never gonna come down
Take the car and cut the brakes,
Driving out into the dark
Either know I left my mom and dad,
I wanna swim out, and we leave the shorts
I wanna learn to speak Japanese,
Raise and shop for the slicker grave
You were made for limousine
So get your shit, and come with me! Let's blow out of this town, too but hanging around
Sky high, head in the clouds,
Never gonna come down, ooh
Drums' pace turn 'em up loud,
Free for spinning around
Sky high, head in the clouds,
Never gonna come down
Blowing bubbles out in the cross,
All time go in stars, getting faded in the back seat
You can be a honey with us,
We used to walk around the back street,
Swimming through some [?]
Fuck the dream, I want it for real!
Always making look so easy, move into the city
Take it little something surreal,
Rematch more than enough,
Yeah we all just tryna be who we feel! Fall and get up in the air, we don't care, no!
Something on a silver ware, wanna let go
We're so caught up being held,
We don't care, no
I wanna run our wild and free

When my friends stand next to me! Let's blow out of this town, too but hanging around
Sky high, head in the clouds,
Never gonna come down, ooh
Drums' pace turn 'em up loud,
Free for spinning around
Sky high, head in the clouds,
Never gonna come down
Uuh aha ah ah
Hanging on hanging on
Uuh aha ah ah
Hanging on hanging on
Uuh aha ah ah
Hanging on hanging around!
