

High for This

The Weeknd

You don't know what's in store
But you know what you're here for
Close your eyes
Lay yourself beside me Hold tight for this ride
We don't need no protection
Come alone
We don't need attention Open your hands
Take a glass
Don't be scared
I'm right here
Even though you don't roll
Trust me girl You wanna be high for this Take it off
You want it off
'Cause I know what you're feeling
It's okay girl, I feel it too Let it beat, baby, breathe
I swear I'm right here We'll be good, I promise
We'll be so good Open your hands
Take a glass
Don't be scared
I'm right here
Even though you don't roll
Trust me girl
You wanna be high for this
You wanna be high for this
You wanna be high for this
You wanna be high for this
You wanna be high for this
