

# Headspace

Lewis Capaldi

[Verse 1]

Salt of the earth, my friend  
It's all that we are in the end  
Well, you trapped down all the lines you drew  
And I can take the hit but I'm sorry, I don't want the bruise  
Your voice gets a little loud  
When there's nothing to talk about, you shout, dear

[Pre-Chorus]

And I'll find my lights fading out  
More and more by the hour  
It gets dark in here

[Chorus]

If you got time enough for me  
Sing me a song and send me to sleep  
Slip into my headspace while I dream  
Spin me a yarn, wrap it up around me

[Verse 2]

Dust to dust, my friend  
Well, you're only blood and bones  
And I know your heart's at war with your head  
I am sure it hurt to see  
You're more than I'll ever have  
And more than I'll ever be  
I know it's a little late  
My timing was never great  
But I'm calling, dear

[Pre-Chorus]

I just wanted to let you know  
That I won't bother you anymore  
I'll be gone this time next year

[Chorus]

If you got time enough for me  
Sing me a song and send me to sleep  
Slip into my headspace while I dream  
Spin me a yarn, wrap it up around me

If you got time enough for me  
Sing me a song and send me to sleep  
I never thought that a lie could sound so sweet  
Until you opened your mouth  
And you said you loved me
