

Falling

Dive

You were taking me down
So I let you go
Is there anything left
Cause we've been here before
Yeah I'm missing your smile
That was there from the start
But that faded away
As you tore me apart And every time I think about you
I just can't let this go
Now there is nothing I can do
To save this broken heart
I was falling hard, I was falling hard
When I fell for you
Walk away, I have nothing left to say
You have taken everything
I was falling hard, I was falling hard
When I fell for you
When I fell for you I kept taking you back
But it always felt the same
Every time it got worse
You said I was to blame
I have nothing left
I have no more to give
You have wasted me time
That can never be relived
And every time I think about you
I just can't let this go Now there is nothing I can do
To save this broken heart
I was falling hard, I was falling hard
When I fell for you
Walk away, I have nothing left to say
You have taken everything
I was falling hard, I was falling hard
When I fell for you
When I fell for you
When I fell for you You were everything I lived for
But I won't hurt for you anymore
You were everything I lived for
But I won't fight for you anymore Now there is nothing I can do
To save this broken heart
I was falling hard, I was falling hard
When I fell for you

Walk away, I have nothing left to say
You have taken everything
I was falling hard, I was falling hard
When I fell for you
When I fell for you
When I fell for you
