

I Shoulda Kissed You

[Ryan Beaver](#)

I keep talkin to myself in the night time tryna find reason
But there just ain't no pleasin my conscience when it comes to you
I've been checkin my pulse and i know my hearts still pumpin
Yeah but man it just ain't thumpin like it did when i was with you
Yeah i shoulda kissed you
Oh i shoulda kissed you
Yeah i shoulda kissed you
Every time i had the chance to
When i think about the past, regret finds me fast
And it kills me
I wish it was just a bad dream and i could wake up next to you
Yeah but that's just not the case and every step that i take reminds me
That i'm gonna have to go forever without you
Yeah and i shoulda kissed you
Oh i shoulda kissed you
Yeah i shoulda kissed you
Every time i had the chance to
But how could i have known that someday you'd be gone
Out of my life and i'd be alone
God, i can be such a damn fool
Yeah and i shoulda kissed you every time i had the chance
Yeah and i shoulda kissed you
Oh i shoulda kissed you
I shoulda leaned right in and kissed you
Every time i had the chance to
Yeah i shoulda kissed you (i shoulda kissed you)
Girl, i'm gonna miss you (i'm gonna miss you)
I shoulda just kissed you
Every time i had the chance to
