

Spinning Round the Sun

Gavin Clark

Let's get it on
Get away from here
I'll kick it off:
In this I am sincere
We went too long
In this political domain
I lost my heart
And you lost your pain
Do you remember when you first laid eyes on my face?
The beautiful people surrounded and grounded your grace
I said, you know that this planet we're on is just rolling round is space
Until our time has come:
We'll just keep spinning round the sun
We'll just keep spinning round the sun
Spinning round the sun
If I was you
I'd get it on with me
We could be young
We could be happy
Look at your friend:
The philosopher is dead
Corrupted your thought
But I got your head
Do you remember when you first laid eyes on my face?
The beautiful people surrounded and grounded your grace
I said, you know that this planet we're on is just rolling round is space
'Til our time has come:
We'll just keep spinning round the sun
We'll just keep spinning round the sun
You and me spinning round the sun
You and me spinning round the sun
Spin, spin, spinning round the sun
