

Falling Back (with Eric Lumiere)

Cosmic Gate

I believe that we can make it,
I don't care what others say,
They don't know the way we love,
They're outside.If you can't meet me in the middle,
Maybe we can compromise a little,
Cause our love is worth it all,
It's bigger than the little things we fight,
For you I'll give up all the lives that don't lift us.We're falling back in love,
Here we are again,
Now you're singing my song,
And I'm singing your song.
Falling back in love,
And we're both moving,
To the beat that goes like this,
I'm singing yeah, yeah, yeah,
And you, oh, oh, oh.We're falling back in love.Now that we are here together,
Let this moment last forever,
As I look into your eyes,
They're so bright,
I promise I'll tell you all my secrets,
Tell you my fears and thing's my demons,
Cause honestly will bring the light,
For you I'll give up all the lives that don't lift us.We're falling back in love,
Here we are again,
Now you're singing my song,
And I'm singing your song.
Falling back in love,
And we're both moving,
To the beat that goes like this,
I'm singing yeah, yeah, yeah,
And you, oh, oh, oh.We're falling back in love...
