

# Don't Go Away

## Leeland

First comes salvation  
Then comes obsession  
Fire starts with a flicker  
And it consumes me  
Suddenly I feel  
I can follow you blindly because  
You've covered my eyes with love

And You've given me more than enough  
You've given me more than enough  
Hide away in Your arms of grace  
Living life the way that You want me to  
Don't go away please be here to stay  
Forever and always  
It's just me and You  
Me and You my Lord

Mighty King, everlasting God  
Never-ending flood, the solid rock  
My love my life my all  
Your heart becomes my heartbeat

You've given me more than enough  
Answers to the questions in the world  
You are more than enough  
You're the answer  
You're the answer  
You're the answer
