

# Werewolf Hologram

## eCID

[ECID]

Fuck The vanity I'm cashing in my sanity tokens  
Love is battery acid now your face is really smokin  
What a pretty moment, yeah the portals open  
Let's dive inside and pass out drunk in a frozen ocean  
Every astronaut needs his dancing mascot it's blast off  
And there ain't enough gas to get back doc  
Full moon at high noon Black jack stand off  
Bombs away bottoms up tops off after shock  
This is not another big footing sighting  
This is your brain on the drugs when the drugs are lightning  
Hold tight to the bright lights- oh how enlightening  
Fight or flight high jack your life it's more exciting  
We all want so much more than we'll have  
Or need it never lasts at least one day you'll have an epitaph  
For the right stack oh what a gas  
Nothings set in stone just sell sell sell and sell it fast

(Hook)

Were all, were all, were all, were all, were all  
Werewolf holograms blinded by the fall of man  
Were all, were all, were all, were all, were all  
Afraid of ourselves and a world we'll never understand  
Were all, were all, were all, were all, were all  
Werewolf holograms blinded by the fall of man  
Were all, were all, were all, were all, were all  
Afraid of ourselves and a world we'll never understand

Got a lot on mind that I can't say to strangers  
Think I'm losing my mind in love with touching danger  
Dancing with the devil treating friends like strangers  
Angel on angel violence we need a savior  
People come people go it's all so novican  
I don't know my brain let alone my motor skills  
Your my Mona Lisa the feelings on over kill  
Call it what you wanna call it maybe I'm over the hill  
Doomed to do what humans do cuz we don't know what to do  
Stuck on mute unplugged unimpressed with everything that isn't you  
Yup I'm screwed up too that news is nothing new  
Prepared to shoot for my favorite pair of shoes

Paralyzed from the dick up without a parachute  
There's no room for hiccups when your scared of the truth  
Jumping through burning hula hoops to regroup the troops  
Let's dance the night away and wake to a game of who's who

(Hook)

Were all, were all, were all, were all, were all  
Werewolf holograms blinded by the fall of man  
Were all, were all, were all, were all, were all  
Afraid of ourselves and a world we'll never understand  
Were all, were all, were all, were all, were all  
Werewolf holograms blinded by the fall of man  
Were all, were all, were all, were all, were all  
Afraid of ourselves and a world we'll never understand
