

Drink About Me

Brett Kissel

We were a million miles a minute
Like the world was only spinning around for us
Started a fire and we jumped in it Hotter than the centre of the sun Slow kissing in a fast car
Jeans sliding off in the rain, yeah
Tonight it's got me smiling, buzzing
All the memories we made, here's to those days I hope a Margarita puts you on the coast with me
A cold Corona takes you down to Mexico
And baby, when you take a sip of some strong whiskey
Does it put you in that dive bar?
Stealing my heart
In a corner booth
Way down in Baton Rouge, baby
'Cause baby
After all this time
A little sip and I miss you like crazy
Tell me, baby
Do you drink about me? Do you ever look back and laugh
At that time I got so drunk at your apartment
Playing air guitar like we were Guns N' Roses?
We were too damn good to forget about
So girl, I'm raising one up now
To the moments I'm still holding I hope a Margarita puts you on the coast with me
A cold Corona takes you down to Mexico
And baby, when you take a sip of some strong whiskey
Does it put you in that dive bar?
Stealing my heart
In a corner booth
Way down in Baton Rouge, baby
'Cause baby
After all this time
A little sip and I miss you like crazy
Tell me, baby
Do you drink about me? The way I drink about you
If you drink about me
Baby, when you do I hope a Margarita puts you on the coast with me
A cold Corona takes you down to Mexico
And baby when you take a sip of some strong whiskey
Does it put you in that dive bar? Stealing my heart
In a corner booth
Way down in Baton Rouge, baby
'Cause baby
After all this time

A little sip and I miss you like crazy
Tell me, baby
Do you drink about me?
Do you drink about me? (Drink about me)
