

Nobody's Lonely Tonight

[Chris Stapleton](#)

[Verse 1]

Sittin' here, it's closing time
You've got your troubles and I bet they're just like mine
Somebody told you goodbye

[Verse 2]

I know a way, can't go wrong
Nobody leads nobody on
Nobody's lonely tonight

[Chorus]

What's love but just some illusion we believe
What's love but just some confusion we don't need

[Interlude]

[Chorus]

What's love but just some illusion we believe
What's love but just some confusion we don't need

[Outro]

You be her and I'll be him
For a while we'll pretend
Nobody's lonely tonight
