

Stop Myself (Only Human)

Calum Scott

[Verse 1]

Driven to the fire
Take it back to where we started
Till we crash and burn again
Now I got it to a science
All this sabotage between us
Dancing on a razor's edge

[Pre-Chorus]

Where does it start? Where does it end?
Two nights ago my broken heart was on the mend
Know I should go but it's so hard when you walk in
I'm not myself when we're apart, I can't pretend

[Chorus]

Oh but I
I'm only human
How am I supposed to stop myself
From loving you, loving you, yeah?
I'm only human
I'm about to do the thing I know
I shouldn't do, shouldn't do, yeah

[Post-Chorus]

We don't know how the story's gonna end
But I know you're gonna break my heart again
I'm only human, how am I supposed to stop myself
From loving you, loving you, yeah

[Verse 2]

Heaven or disaster
In the middle of the madness
Hard to tell which one is which
Always caught up the morning after
When I'm reaching out to hold ya
Nothing on my fingertips

[Pre-Chorus]

Where does it start? Where does it end?
Two nights ago my broken heart was on the mend

Know I should go but it's so hard when you walk in
I'm not myself when we're apart, I can't pretend

[Chorus]

Oh but I

I'm only human

How am I supposed to stop myself
From loving you, loving you, yeah?

I'm only human

I'm about to do the thing I know
I shouldn't do, shouldn't do, yeah

[Post-Chorus]

We don't know how the story's gonna end
But I know you're gonna break my heart again
I'm only human, how am I supposed to stop myself
From loving you, loving you, yeah?

[Bridge]

Look like an angel

Palms on your halo

Look like an angel

And I'm drowning in your light

[Chorus]

Oh but I

I'm only human

How am I supposed to stop myself
From loving you?

I'm only human

I'm about to do the thing I know
I shouldn't do, shouldn't do, yeah

[Post-Chorus]

We don't know how the story's gonna end
But I know you're gonna break my heart again
I'm only human, how am I supposed to stop myself
From loving you, loving you, yeah?
