

# Shooting Star

Joyner Lucas

[Verse 1]

I get love down in Cali' like the homie Dre  
But these hoes think I'm Snoop they won't go away  
They should play this down in Compton with a cherry drop top  
Then everybody get to blasting till they blow the bass  
I ain't gotta say much bitches know the face  
Joyner Lucas got it tatted on the shoulder blade  
Try to Play me you just Skating on a frozen lake  
I just wanna put it in her mouth and make her poker face  
Tell me did you take it for the night  
I know what you thinking I'm your saviour for the night  
I've been paper chasing till my bank be looking right  
I just need some motivation what you dragging for the night  
And don't be talking bout them other heads  
Ask about me I've been macking like a fucking crack  
Bitches love me in the country like I'm a lieutenant  
I'm just honest with you don't mistake me for a fucking sac  
Nah

[Chorus]

Homie I'm just what you made me I'm a shooting star  
Got a house on the headland and a million cars  
We done came from the projects you know who we are  
I'm fine and on top of that livin' in the sky

[Chorus]

Homie I'm just what you made me I'm a shooting star
