

# Hello Goodbye

[Tyler Farr](#)

[Verse 1]

I told myself a thousand times it wouldn't end like this  
But here I am standing at the door with no more walls to hit  
I didn't notice it was over til it was too late  
All the tears are cried and it's time to walk away

[Chorus]

So hello suitcase, hello pictures on the floor  
Hello heartache, hello slamming doors  
Hello Silverado running in the drive  
Hello freedom, hello goodbye  
Ooooh

[Verse 2]

I never knew this gravel drive could be so damn long  
And I never thought I'd ever be this close to being gone  
I wonder if she wonders if I'll turn this truck around  
I wish I could cause it hurts like hell but it's too late for that now

[Chorus 2]

So hello highway, hello city limit sign  
Hello sunset, hello Jackson county line  
Hello radio go and play that song tonight  
Hello freedom, hello goodbye

[Verse 3]

Oh I did the best to make the best of us  
But hell sometimes love just ain't enough

[Chorus 3]

So hello teardrops, hello empty space  
Hello memories, hello love we used to make  
Hello Jesus won't you help me through the night  
Hello tomorrow, hello goodbye
