

# Missing You

## The Black Eyed Peas

[Intro: Fergie]

I can't stand another night  
Stand another night without you

[Chorus: Fergie]

Since you've been away  
Everything don't seem like they used to be  
Between you and me, cause I'm missing your  
I'm missing your love  
I'm missing your, I'm missing your love  
I'm missing your love, I'm missing your love

[Verse 1: will.i.am & (Fergie)]

Yo, yo, yo  
Everyday, everyday that you're gone, I'm singing that sad song  
If loving you is wrong, then I must be wrong  
Even when I'm gone (don't go away) our love is strong  
(Don't go away) You the one I want (Don't go away)  
You my num, you my num, you my number one  
And yeah, our love ain't going out of fashion  
I need to love your passion, the love is everlasting, lasting

[Chorus: Fergie]

Since you've been away  
Everything don't seem like they used to be  
Between you and me, cause I'm missing your  
I'm missing your love  
I'm missing your, I'm missing your love  
I'm missing your love, I'm missing your love

[Verse 2: will.i.am & (Fergie)]

When I'm out, on the road (I'm missing you)  
Rocking them shows (missing you) up in Monaco  
(I'm missing you) Making dough  
When it may seem plush (I'm missing you) and glamorous (Miss kissing you) But I miss your  
touch  
(I'm missing you) Yeah, I miss your touch  
I spend all my time (missing you) with you in mind  
(Missing you) My mind's on you, cause all I am is missing you (I'm missing you, missing you!)

(I'm missing you! I'm missing you!)

[Chorus: Fergie]

Since you've been away  
Everything don't seem like they used to be  
Between you and me, cause I'm missing your  
I'm missing your love  
I'm missing your, I'm missing your love  
I'm missing your love, I'm missing your love

[Verse 3: apl.de.ap]

Girl, I ain't never had nothing like this  
When I'm all sprung, caught up like this  
Maybe it's your face, girl, maybe it's your lips  
Maybe it's the way you shake them hips  
Baby, it's the way you do what you do  
Got, got me all lovestruck on you  
I be just like an umbrella the way I'm all over you  
I know them other boys be calling you  
But they just want a piece, I want all of you  
Take my time just spoiling you  
Cause I know I'm in love with you

[Bridge: Fergie]

Please, baby, don't go  
I'm needing you now!

[Breakdown: Fergie]

I'm missing you oh, oh, oh  
I'm missing you oh, oh, oh  
I'm missing you oh, oh, oh  
I'm missing you, missing you!  
I'm missing you!  
I'm missing you!

[Outro: will.i.am]

Hey! I miss your love, girl  
I miss, I miss your love  
I miss, I miss your love, Hey!  
I miss your love, girl  
I miss, I miss your love  
I miss your love, girl  
I miss, I miss your love
