

# Background Music

Thomas Rhett

[Verse 1]

Well, it's shoulder to shoulder up in here tonight  
Got bottles poppin', floor is rockin', packed in tight  
It's hot, and it's hazy  
And it's loud, and it's crazy  
Girl, when you take my hand  
You don't even understand

[Chorus]

Everything that's going on is just background music  
And everything except you girl just fades away  
It's like me and you, are the only two  
Dancin' 'round this crowded room  
So, tell me how you do it (Tell me how do you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how do you do it)  
Turning everything  
Into background music (Background music)  
(Hey, hey, hey!)

[Verse 2]

Girl, it don't really matter where we are  
Your face outshines the moon, the sun, and stars (Hey, hey)  
Baby, your eyes are like diamonds  
And your smile's so blindin'  
I could be front row at the Stones  
And I wouldn't even know they're on

[Chorus]

Everything that's going on is just background music  
And everything except you girl just fades away  
It's like me and you, are the only two  
Dancin' 'round this crowded room  
So, tell me how you do it (Tell me how do you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how do you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how you do it)

Turning everything into background music

[Bridge]

Oh baby girl, you know you got all my attention  
Ain't even gotta say a word cause baby I miss it  
Everything that's goin' on is just background music (Background music)  
Everything except you girl just fades away (Fades away)  
It's like me and you are the only two  
Dancin' 'round this crowded room, so

[Chorus]

Everything that's going on is just background music  
And everything except you girl just fades away  
It's like me and you, are the only two  
Dancin' 'round this crowded room  
So, tell me how you do it (Tell me how do you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how do you do it)  
Turning everything into background music  
Tell me how you do it (Tell me how you do it)  
Turning everything into background music  
Tell me how you do it  
Turning everything into background music
